

# Using the guest Wi-Fi (eduSTAR\_Guest)

To use the guest Wi-Fi network at Warragul Regional College, you require a daily **registration code**.

This **code** can be obtained by speaking with the IT department.

Once you have this **code**, connect to the **eduSTAR\_Guest** network, there will be no password to initially connect. After you are connected, you will be redirected to a page asking you to **login**, or **register**.

Register using the daily **code** and press login. *You should now have internet access.*

Save the username/password as you can use it to reconnect later, or you will need to **register again**.

## Known Errors / Issues:

End time is before current date time:

This error indicates a problem with your browser cache. You will need to clear your cache before attempting to register again.
